Education

BSc in Information Technology (Expected Dec 2026)

North-West University (NWU) - Remote/Online

- **Focus:** Database theory, analytical reasoning, and system analysis.
- **Current Academic Standing:** 18 Distinctions to date across 26 graded modules.
- **Relevant Coursework:** Database Management, Problem Solving for Managers, Information Security, Data Analytics, Decision Support Systems.

CPD-certified Diploma in GDPR and Data Protection (2025)

Alison Online

National Senior Certificate (2023)

High School Hoopstad

- Graduated with an 83.14% overall average (Mathematics: 87%, Physical Sciences: 78%).

Experience

(References available upon request)

AI Expert Assistant (Feb 2026 – Jun 2026)

Mindrift / Toloka AI - Remote, Freelance

- Interpret and apply detailed task guidelines with precision in a deadline-driven remote environment.
- Analyse text, identify patterns, and evaluate AI-generated responses to produce structured, high-quality data for machine learning training.
- Successfully manage large volumes of tasks while maintaining accuracy and consistency, troubleshooting unclear instructions to ensure compliance with project standards.

Silo Technician & Data Clerk (Jun 2024 – Sept 2026)

JD Horn Boerdery BK - Seasonal

- Operate and manage silo components for 40,000+ metric tons of grain in a newly constructed agricultural facility.
- Streamline data-entry processes to ensure accurate data capture and reporting.
- Prepare detailed operational reports and communicate directly with management, resulting in considerable time savings for owners.

Multimedia Technician & Workflow Lead (Jan 2020 – Dec 2026)

NG Kerk Hoopstad - Freelance

- Redesigned multimedia software and hardware workflows, consolidating three roles into one while improving operational speed and reliability.
- Created onboarding materials and training guides using Microsoft 365 and Google Workspace, significantly reducing errors for new hires in their first 90 days.
- Manage team scheduling and workflows to ensure proper staffing for critical events (services, weddings, livestreams), minimizing conflicts and improving efficiency.

Achievements

- **AI Agent & Productivity Platform Projects:** Completed 23+ projects leveraging tools like Google Gemini Pro, MS 365 Copilot, and Excel to conduct research and prepare actionable client reports, streamlining processes to improve efficiency.
- **Workflow Optimization:** Reorganized and tightened information capture workflows across multiple environments, demonstrating a proven ability to spot issues proactively and enhance system structures.

Skills

Productivity & Office	Microsoft 365 (Excel, Word, PowerPoint, Teams). Google Workspace (Sheets, Docs, Forms).
AI & Automation	GitHub Copilot, MS Copilot, Google Gemini, ChatGPT, Claude, Grok, Meta AI
Data & Analytics	Python (automation, data manipulation), SQL (basic querying, reporting), and data visualization (Power BI, Excel dashboards).
Core Competencies	Analytical thinking, process improvement, problem-solving, structured decision-making, typing (64 WPM, 100% accuracy), independent remote discipline.
